HobbyMac

Volume One

Amateur Radio

Aether

Ham radio logging application that includes tools to quickly and easily log QSOs while on the air, as well as organize, search and track your QSOs later.

Black Cat CW Keyer

Send morse code from your computer. You can type out the text to be sent (immediately or buffered) as well as create and send from one key macros. You can also send from text files. All this makes it incredibly easy to send CQs and for general QSOs as well.

Elmer

Helps you study for your amateur radio exams.

Morse Mania

Morse code tutor

Multimode

Decode and transmit morse code (CW), RTTY, FAX, SSTV, SITOR-B, NAVTEX, PACKET, ACARS, PSK31, ALE, and many other modes on your Macintosh, without any extra hardware. Just connect your Mac to your radio & you're all set to go!

Astronomy

Stellarium

Open source planetarium for your computer. It shows a realistic sky in 3D, just like what you see with the naked eye, binoculars or a telescope.

Comics

Comic Book Lover

Enables comic fans to easily view, collect, and organise digital comics. Find comics to read by browsing cover artwork, smart lists, or using the advanced search functions.

Wednesdays List

Allows comic book collectors view, manage, print, and save custom new and upcoming comic book release pull lists.

Cooking & Drinks

A Cook's Books

Simplifies entering recipes by allowing you to import them from multiple sources and scale recipes up or down by amount or by servings.

BarGenie

24,000 Drinks On Your Desktop - More recipes than a sailor can handle, at your fingertips.

Barsentials Drink Guide

Whether you're entertaining guests, throwing a party, or just feel like a cocktail in the comfort of your own home, the Barsentials Drink Guide can help you get more out of your home's liquor cabinet. Recipe books make for a nice coffee table decoration but their usefulness is limited when you find you don't have the necessary ingredients to make the cocktails.

Computer Cuisine Deluxe

Recipe software to allow you to conveniently view, print, sort, file, and manage your cooking recipes.

CookWare Deluxe

Organizer for Recipes that's easy, and powerful!

MacGourmet Deluxe

Bring your recipe collection into the digital age. Easily create, edit & share recipes; organize your cooking and wine notes; plan meals, even create and print your own cookbook!

Mealplan

A plug-in for use with MacGourmet that gives you a Weekly Planner that lets you add meals and recipes by just dragging and dropping them from your MacGourmet recipe box

Nutritionist

Your personal food coach. It will advise you in choosing healthy meals. And Nutritionist will help to improve your meals.

Organized Gourmet

Manage your recipe collection, schedule meals and print shopping lists.

Wine XT

Manage your wine inventory and your own wine tasting notes – sight, smell, taste and the quality of a wine in your wine collection

YummySoup!

Organize, Share, Cook & Shop. Use your Apple remote to flip through your recipes, or have your directions read to you!

Crafts

Dress Assistant

Make a trip to the inside of your wardrobe. Organize, remember, experiment and play with all your clothes and accessories. Add the new purchases and combine everything.

Knitting Wizard

Create your own custom knitting grids and diagrams bringing your knitted concepts to life. Save time, and avoid the numerous mistakes that come with transferring your designs to graph paper, with Knitting Wizard's "goof proof" menu.

Stitches

Create gorgeous cross-stitch charts yourself. Design them from scratch, or import your favourite photos, drawings and clipart. You can also manipulate the chart with powerful painting and selection tools.

HobbyMac

Volume One

Genealogy

MacFamilyTree

Modern Genealogy software that harnesses the power of many new technologies including Apple's revolutionary Core Data technology to easily sift through huge databases and Google Earth to research geolocations.

Osk

everything you would expect a genealogy app should do, but does so really easy, extremely fast. You can draw family trees and save them, create a family website. All with a click of a button. But the most important is how easy to use it is, and how fast it is.

Lego

Bricksmith

Create virtual instructions for your Lego creations on your Mac.

LEGO Digital Designer

Build absolutely anything with virtual LEGO bricks right on your computer. Then you can buy the real bricks to build your creation online in LEGO Factory, or you can print out an inventory of bricks and take it to any LEGOLAND theme park or LEGO Store.

Library Collections

Bookpedia

Whether books line every wall of your house or barely fill one shelf, keep track of them. Entering the information for each book is fast and easy because the program retrieves all the information from the Internet for you. So you can sit back and relax with a good book.

Booxter

Track your collections of books, music, movies and comics

Cdpedia

Retrieves information about your CDs automatically from the Internet, lets you organize the entries into collections and integrates with iTunes to let you know which CDs or single songs you have imported already.

Delicious Library

Catalog your books, movies, music, software, toys, tools, electronics, & video games.

DvdHunter

Catalog, sort, and organize your movie collection

Dvdpedia

Movie cataloging that saves you time and effort, as it retrieves all the information from the Internet via keyword or UPC scan, so you have time for more important things, like watching movies.

Librarian Pro

Organize items into smart collections, add them to the in-program Amazon shopping cart, mark them as lent out to friends, and even export for the web or your iPod!

Library Books

Connects to your local library catalogue and downloads the list of books you have checked out. Then books are displayed the menu bar.

Model Rail

Rail Modeller

Create model railroad and slot car layouts by simply dragging tracks from the library to the plan, plug them together, arrange them and finally print your layouts in full scale!

Empire Express

Quickly, easily, and accurately design your own model railroad empire.

Pets

Fluffys Log

Storage of multiple pet information, manages pedigree lineage and keeps tabs of medical and insurance records. Plus you can always print out the hard copy complete with photos, whip it out when the time is appropriate, and let your friends gawk at your wonderful pet.

SafeCat

Collect important information about your cat in order to keep him safe. Safe from whom? Well, if you think of yourself as your cat's parent or guardian, then like any parent you want to be prepared for any accident or emergency that your "kitty" gets into.

SafeDog

Same as SafeCat, but for your Dog.

Puzzles

Crossword Wizard

Crossword generator that includes a separate crossword player allows you to share puzzles. Answers password protected, Hints, Progress printout & Auto Marking

Crossword Forge

Make your own interactive web puzzles. Crossword Forge can now turn your puzzles into interactive web pages and include eye-catching animations that players will be sure to love.

HobbyMac

Volume One

Puzzles *(continued)*

QuizMaster Pro

Full-featured quiz application which generates, administers, archives, and scores multiple choice, matching, and short answer tests. Users can link tests and add pics, movies, sounds.

Quiz Press

Make your own quizzes that you can put on the web or print out

Sport

DivotTracker

Calculates your golf handicap and stores your scores.

eScoreboard

Transforms your computer into a Tournament Electronic Scoreboard. It will provide the possibility to control the the countdown time, periods, teams' names, scores, faults, and it will make a sound when the time is over.

Golfcard

Allows you to store all of your golf rounds, save the details for your favourite courses and save scores for future analysis.

Golf XPress

Manage 3 lists of information relating to Golf – The first one handles the Players. The second one, the Golf Courses. And the third and more important one, handles the Games List, with the rounds you and the members of your Players List, played.

Knapsack

Personal travel organizer which allows users to plan, organize, and relive their travel adventures.

MacDive

Log dives directly from your Suunto Dive Computer via USB, or from Suunto Dive Manager 2.x logbooks.

Runners Log

Runners, joggers and walkers can track workouts and progress or follow a workout plan using graphs and history tools. Plus view derived data and statistics such as the number of calories burned or the average lap pace.

Scorecard

Comprehensive golf statistics application which allows you to understand every aspect of your game. Improve your game by focusing on your weak points to lower your scores! By tracking golf's essential statistics, Scorecard gives you the areas of your game that need improvement and a history of your game play.

Weightmania

Complete fitness, nutrition and exercise journal. Track weight training and cardio workouts, meals, measurements, diabetes, general health and more.
