...all contained in a double DVD set!

Note: The applications and data supplied on this DVD are supplied as is.

Various different license types apply. Some titles and resources require a further payment direct to the original publisher to enable the full features, or they may require acknowledgment of the author/composer if you use their works in your own.

Most of the contents will work with iLife & iWork '06, '08 & '09 versions. However, some of the plug-ins or templates may only work with one particular version of a suite. Check relevant documentation for compatibility requirements.
